

VELOTOUR THERAPY CLUB 40/70 APOSTOLOS-TOURS.COM GREECE 2018

We have been a travel agent, since 1985, that is involved in incoming tour. We offer excursions of mass tourism, group holidays, visits to archaeological sites and biking tours.

We have matured and remain in the same direction, but now we are interested in small groups which are interested in biking tours and camping.

For our programs we accept from 1 person to 15 with the respective charge.

We don't participate in races every day, the maximum number of kilometres a day is 35-40 with the support of a car of course.

Our mindset are picturesque routes, tasty food, good wine and romance. These are offered here in Greece because of the great climate. Therefore you can choose between selected routes in Pelloponisos, Sterea Ellada and Ipiro and a variety of museums and archaeological sites. You now have the chance to see our programs and their cost.

Whatever is not mentioned is not included in the price.

There must be mutual understanding in all the activities (for example if we want to visit an archaeological site and someone doesn't agree, we will follow what the majority of the participants is willing to do without being unfair to the others.

A unique characteristic of all our programs is the route. There will be routes with different colours  according to their level of difficulty, that is
